

Comenius Anthem

“Our Voices across Europe”

It doesn't matter if there's snow or heavy rain
Your best friends for ever will hug you tight again
Friends will always love you as if world is ending
You should remember that love is never ending

Music is expression, leading to perfection.
It is the connection of civilizations.
If someday you're sad, or if you're happy,
Life with music will always be a party.

Different countries we come from
We have no boundaries no fears to move on
Our hopes dreams to share give voice to with a song
Europe is the home to which we all belong.

It doesn't matter where we are,
We can be friends, even if it's far,
Away from each other, just be together,
And we will be friends for ever

Traditions are the way for a better day
Culture is the key for a country's harmony
Let's praise culture, traditions and human condition
As a sign of our long-living erudition.

We come from the north. We come from the west.
'r voices might sound different. Diversity is the best.
We come from the south. We come from the east.
We all live in Europe. C'mon, let's shout and twist!!

When you find a piece of peace, search deep inside or
When you find a piece of peace, catch it not to miss
We all need a piece of peace to live in this World
Let's grow together the peace that we have in hand

Refrain:

GET HAND IN HAND WITH THE POWER OF muzyka, mousiki, musica, zene,
muzică, música, musik
